

NGO LE QUANG DAT

FullStack Intern

☎ 0327 125 737 ✉ ngolequangdat08122003@gmail.com

OBJECTIVE

Aspiring Full Stack Web Developer with a solid foundation in frontend and backend technologies. I am eager to apply my knowledge to build end-to-end web applications and gain hands-on experience through real-world projects. Committed to continuous learning, embracing feedback, and contributing effectively to a collaborative team.

EDUCATION

◆ **University of Science, Viet Nam National University Ho Chi Minh City**

8/2021 - 12/2025

Major: Physics and Computer Science - GPA: 7.83/10

Talented Bachelor Program in Physics, specialization in Computational Physics

SKILLS

Programming Languages: Java, JavaScript (ES6+, Async/Await), C++, HTML5, CSS3.

Backend & System Integration: Spring Boot (Java), Node.js (Express), RESTful API, Authentication (JWT, Bcrypt).

Frontend & UI Libraries: ReactJS, Tailwind CSS, Bootstrap, jQuery, Responsive Design.

Database & Data Handling: MySQL, MongoDB (NoSQL), JSON Data Handling.

Tools & Version Control: GitHub, VS Code, Word, Excel, PowerPoint

Soft skills: Team collaboration, Time management

GRADUATION PROJECT

◆ **Real-time Auction Platform – Full-stack Web Application**

Key Technologies: ReactJS, Spring Boot (Java), RESTful API, Responsive Design, WebSockets (SockJS/STOMP), JWT, Spring Security, JPA/Hibernate, Tailwind CSS, MySQL.

- Built a real-time auction platform with a responsive frontend and a RESTful API backend.
- Implemented Authentication & Authorization using JWT and Spring Security to manage secure access for Guests and Registered Users.
- Developed a live bidding system handling concurrent requests (pessimistic locking), enabling real-time price updates and synchronized countdown timers.
- Enhanced user experience with key features: product search, user login/registration, and successful bid history tracking.

◆ **Hobby Store – Full-stack E-commerce Website**

Key Technologies: ReactJS, Node.js (Express), MongoDB, RESTful API, Responsive Design, Bootstrap, JWT, Bcrypt.

- Built a full-featured e-commerce site for collectible models with a responsive frontend and a RESTful API backend.
- Implemented Authentication & Authorization using JWT and Bcrypt to manage secure access for Guests, Registered Users, and Admins.
- Developed an Admin Dashboard for inventory management (CRUD), enabling real-time stock updates (auto-decrease on purchase) and order status tracking.
- Enhanced user experience with key features: product search, persistent shopping cart, and order history tracking.
